

ORD 1368-66
22 April 1966

MEMORANDUM FOR THE RECORD

SUBJECT: Meeting with Messrs. Proctor, [] Clarke, and
Col. White on 21 April 1966

25X1

1. Ed Proctor asked if I would sit with he, []
John Clarke, and Col. White during their review of the []
[] human factors proposal from NPIC contracted
with [] I met with Mr. Proctor prior to the
meeting and told him I had not read the proposal, I under-
stood it was the best of the four submitted, but I felt it
would take careful monitoring based on the brief summary
which I had read. I also voiced [] concern that
very little of the work was actually being done by []
as most of it would be under subcontract.

2. After the meeting with [] and Mr. Proctor, we
met with Col. White who quite obviously was not enthusiastic
about the human factors and on several occasions wondered
whether ORD should not do it or whether it could be done in-
house. I felt under the circumstances that there was little
I could contribute to the discussion. It was not clear
whether Col. White would forward this with a favorable recom-
mendation. I did inform Mr. Proctor and [] that Dr.
[] will be joining us soon, along with []
might be of assistance to them in monitoring the project if
they wish us to assist them.
